The Danish West India Islands are net ours merely because the Senate has ratified the treaty of cession. The next step will be a vote of the Danish which may overturn whole matter.

If there is danger of a revolt of labor on Kona plantation it will not be nec-essary to ruin the shareholders of the property so as to quell it. Safeguards of the peace will always be provided by the government.

The case of Ben Daniels, a man whom the Senate is not eager to conarm as United States Marshal, is another instance of the fact that an Arizona record in an office-seeker is not a fault to be lightly overlooked.

We are informed by an evening paper that attacks on the First Circuit Court are not conducive to party harmony. What has the First Circuit Court got to do with parties? We had felt assured ourselves that the outfit, with the exception of the third Judge, was political, but did not expect so plump a confession from an organ of the Gears.

The value of the coming Pearl Harbor dockyard in cases like that of the transport Warren needs no demonstration. Eventually we shall have a dry-dock that will take in the biggest ships of both the merchant and war marines. When that time comes we shall expect to see Pearl Harbor a rendezvous, of considerable importance, for ships needing vital repairs.

This country has too much politics ed, for its own good, and would like to escape as many special elections as poswe fall to see why any one should want to bother with it. Good policy all around would be to let this fourth district election go by default.

Of course it is, we could have told you that some time ago. And yet if the wishes of every party at interest, creditors and shareholders alike, had been heeded by the court, ample funds would now be in hand. If Kona is rilined, the respectively well part the would now be in hand. If Kona is ruined, the responsibility will rest upon the judicial person who, in a New Orleans interview, printed last summer, declared war on the planting interests of Hawaii, and who, in his assaults on McBryde, Kona and other properties, has shown himself willing to misuse the powers of the court to such ends. ### After Our Trade.

SAN FRANCISCO, Feb. 15.—The de-parture of the steamship Meteor last night for Honolulu and other Hawalian ports via Seattle and Puget Sound points, merks the beginning of a new eenn freignt service between San ranciscs and the Islands.
The Meleor is owned by the Globe

Navigation Company, and is one of a trio of fast freighters which will hereafter leave this port every twenty days and compete with the Spreckels line and the American-Hawalian Steamship Company for the sugar carrying and general merchandise trade. The other vessels are the Tampico and the Eureka, caub of 3,000 tens. None of them

will carry passengers.
P. W. Rochester, the local representative of the company, said last night: "These three ships constitute practically a new line of vessels to the Islands, although up to date we have made four trips to Hawaii from Seattle. The great importance of San Francisco as a shipping center, however, caused us to change our plans and make this city our home port rather than Seattle, calling there, however, on the trip to the Islands. It requires sixty days for each vessel to make the round trip, calling at ports on four of the Islands-Oahu, Maul, Hawaii and Kauai. Until we began operating this line, the two competing steamship, compathe two competing steamship compa-nies clung to the exorbitant freight rates of \$5, with primage of 5 per cent though primage has been obsolete and forgotten by all other civilized com-munities. Our line has forced down rates to \$3.50 on the part of the other impanies, which is a reasonable rate. carrying business as well as in general freighting."
